

CHURCH FAMILY NEWS/MATTERS FOR PRAYER

From Voice of the Martyrs: In Sudan, Christians face poverty, war and genocide. Arab-Sudanese are trying to eradicate black Sudanese in the Nuba Mountains, where Christian villages face daily bombings by the Sudanese military. The government is trying to eliminate all Christian villages, churches, hospitals and schools in an effort to Islamize the country. Although the constitution guarantees religious freedom, Islam remains the de facto state religion, and apostasy is punishable by death under the government's Shariah law. Muslims are given preferential treatment, and non-Islamic proselytism is prohibited. It is difficult for Christians to obtain permission to build churches. Converts face social pressure and harassment from security services. They typically do not stay in Sudan. Since early September, Christian children are being denied food in Sudan's refugee camps unless they recite Islamic prayers, a mission aid worker at the camp reports: The majority (of children) are left in camps, some in a very terrible situation. They are confined in those places and given the choice to starve or they are conditioned to say Islamic prayers before (being) given food - many of these refugees -- most of whom are Christians -- have experienced additional hardships at the hands of Islamic militants who have taken advantage of their vulnerable situation. Pray that they rely on the Lord for His provision and guidance.
